AWM ACCOUNTING SYSTEM — V3.8.0

Paano Mag-Start ng New Month?

Step-by-Step Manual for Month-End Processing

Prepared by AWM Development Team • April 2026

What Does "Starting a New Month" Mean?

In the AWM Accounting System, **"starting a new month"** means you are **closing** the current accounting period and rolling forward all your account balances into the next month. This is called **Month-End Processing**.

Think of it like flipping a page in a notebook — everything you've written (your transactions) gets summarized and carried over, and you get a fresh page for the next month.

> 💡 **KEY CONCEPT**
>
> You don't "open" a new month. You **close** the current one, and the system automatically moves you to the next month.

Before You Begin (Checklist)

Before you can close the month, make sure all of these are done:

#	TASK	WHERE TO CHECK
1	**All transactions for the month have been entered**	FS → Main tab → Data Entry
2	**All transactions have been posted** (unposted count = **zero**)	FS → Main tab → Post All Transactions
3	**Review your reports** — check Trial Balance, Income Statement	FS → Query/Report tab
4	**Back up your database** (strongly recommended!)	FS → File tab → Backup Database

> ⚠️ **IMPORTANT**
>
> If there are still unposted transactions, the system will **block** you from closing the month. You must post them first.

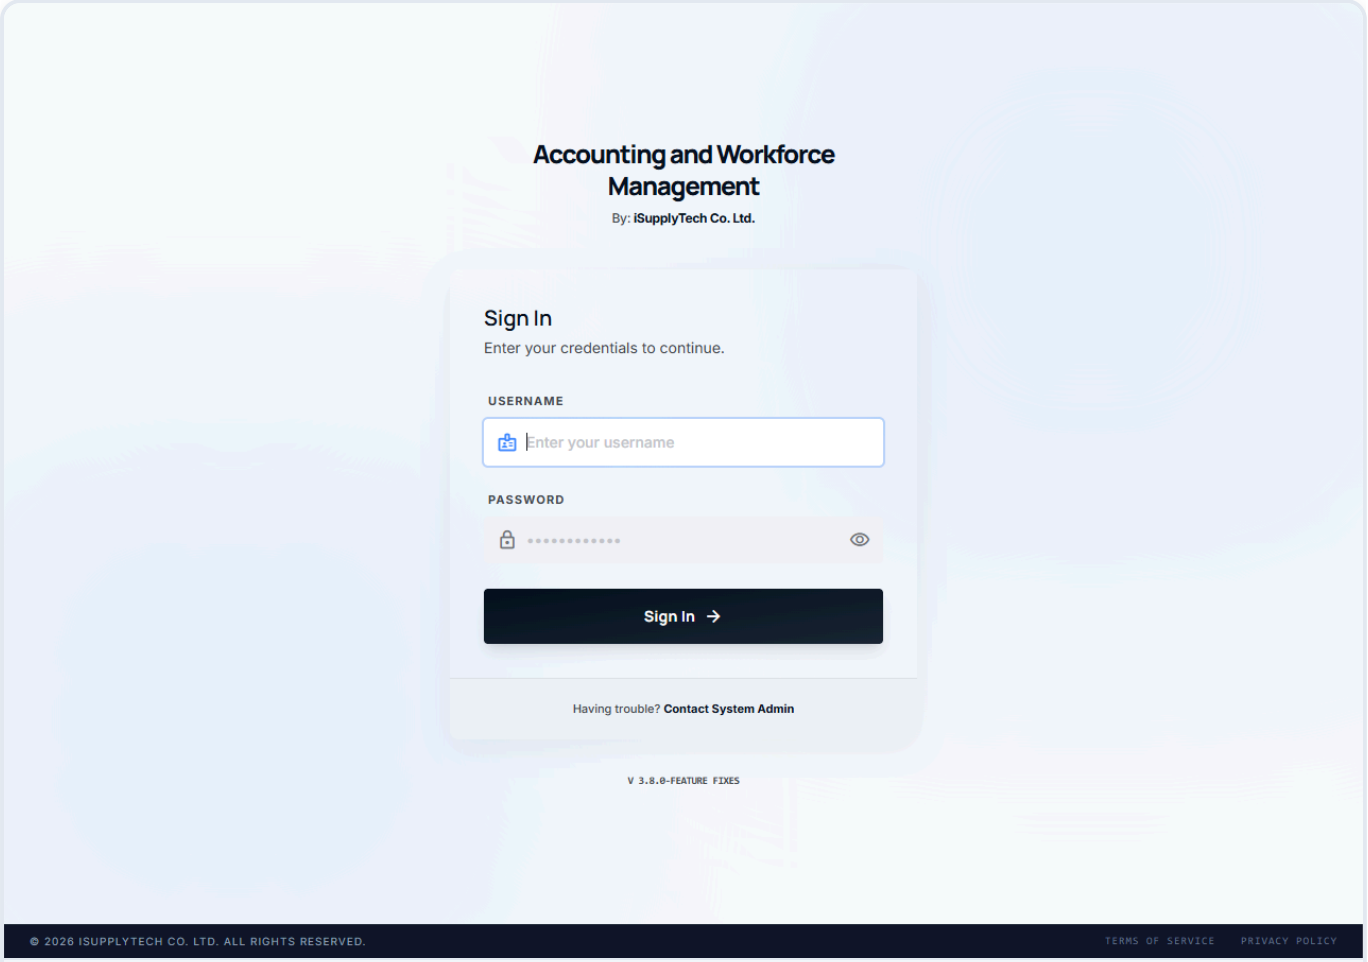
Step-by-Step Guide: How to Close the Month

1

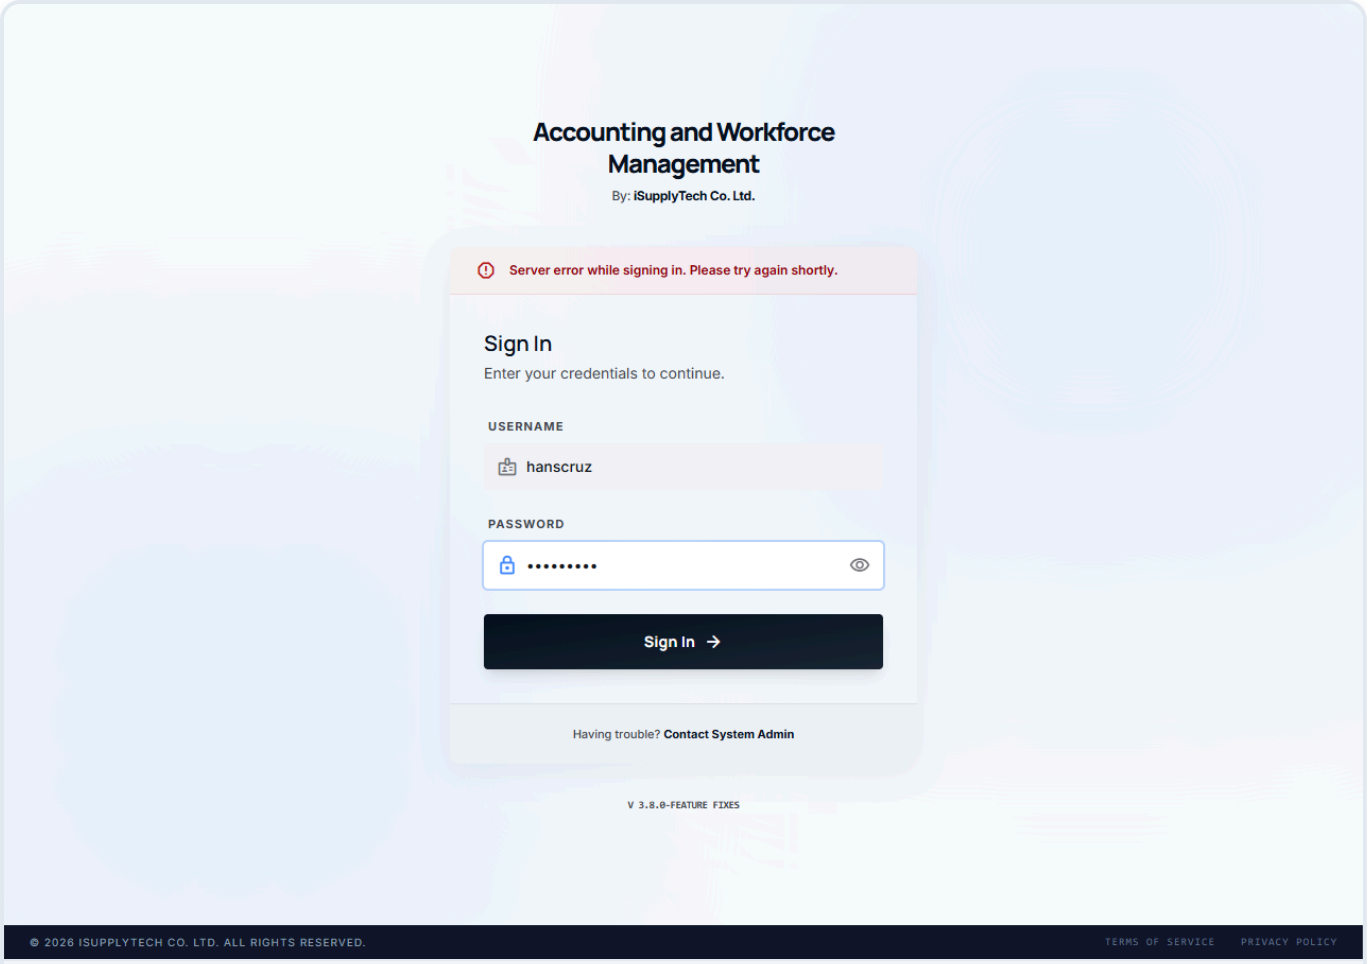
Log in and select your company

Open the AWM Accounting System. Enter your username and password. After logging in, choose **Financial Statements**, then select the company you want to work on.

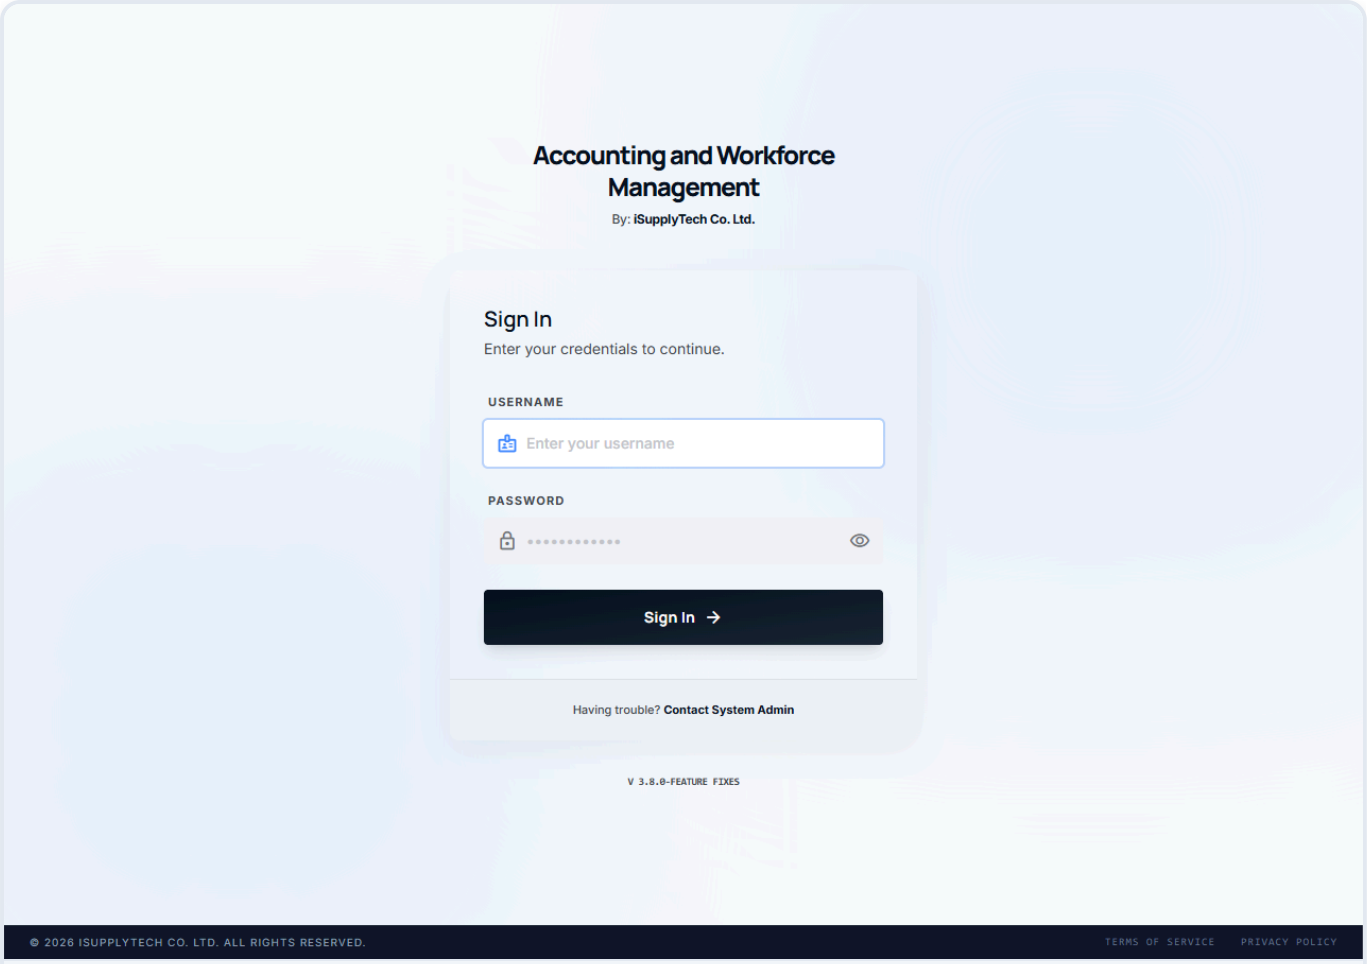
Login → System Options → Financial Statements → Select Company



SCREENSHOT: LOGIN PAGE



SCREENSHOT: SYSTEM OPTIONS — CHOOSE "FINANCIAL STATEMENTS"

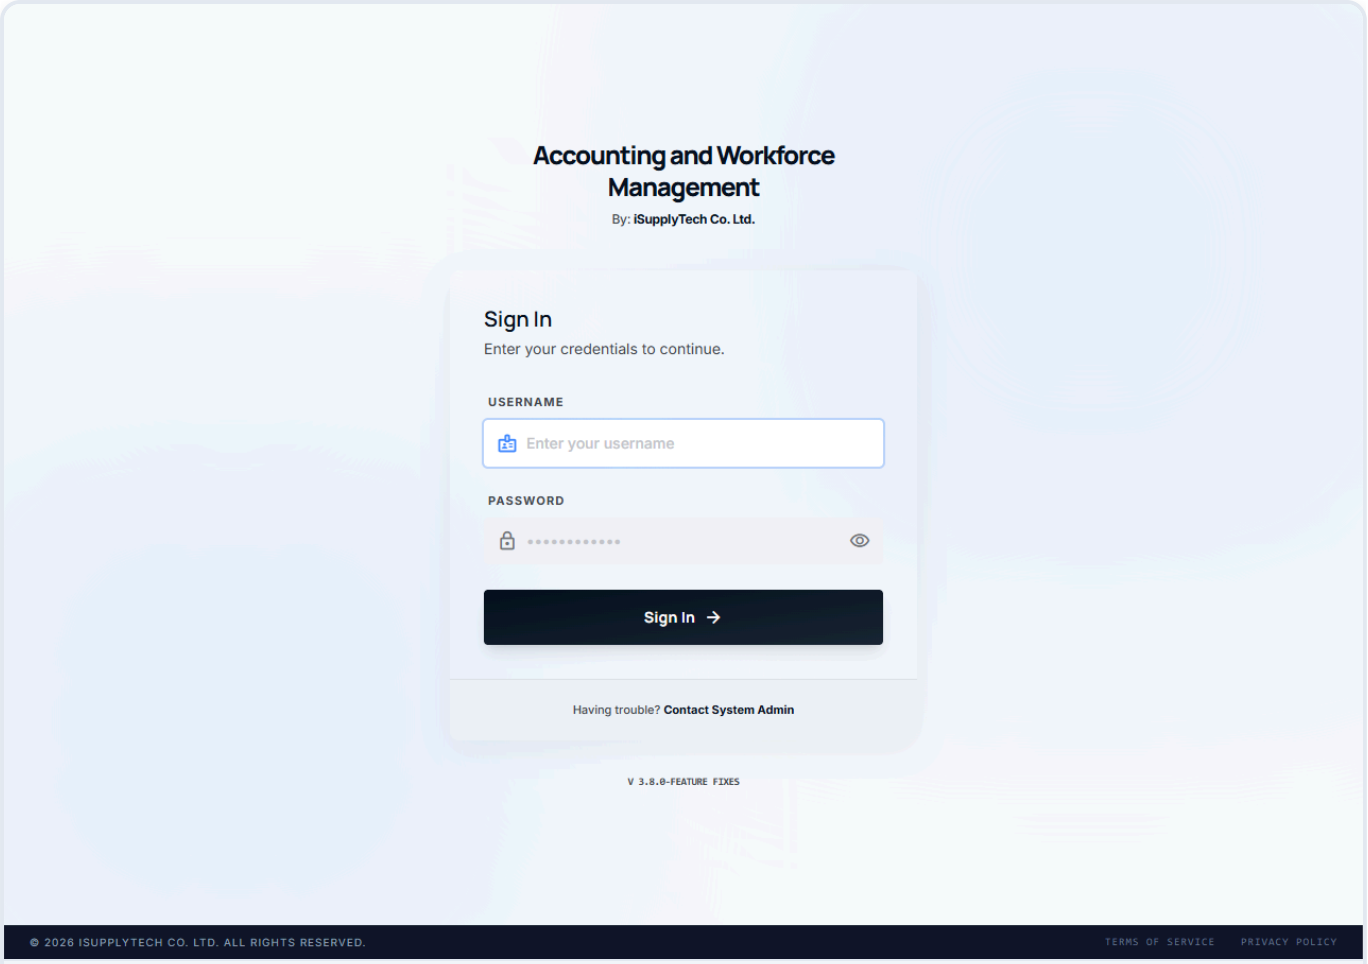


SCREENSHOT: SELECT COMPANY

2

Check the FS Main Menu

After selecting a company, you'll land on the **Financial Statements** main screen. Here you can see the current period and the number of unposted transactions.



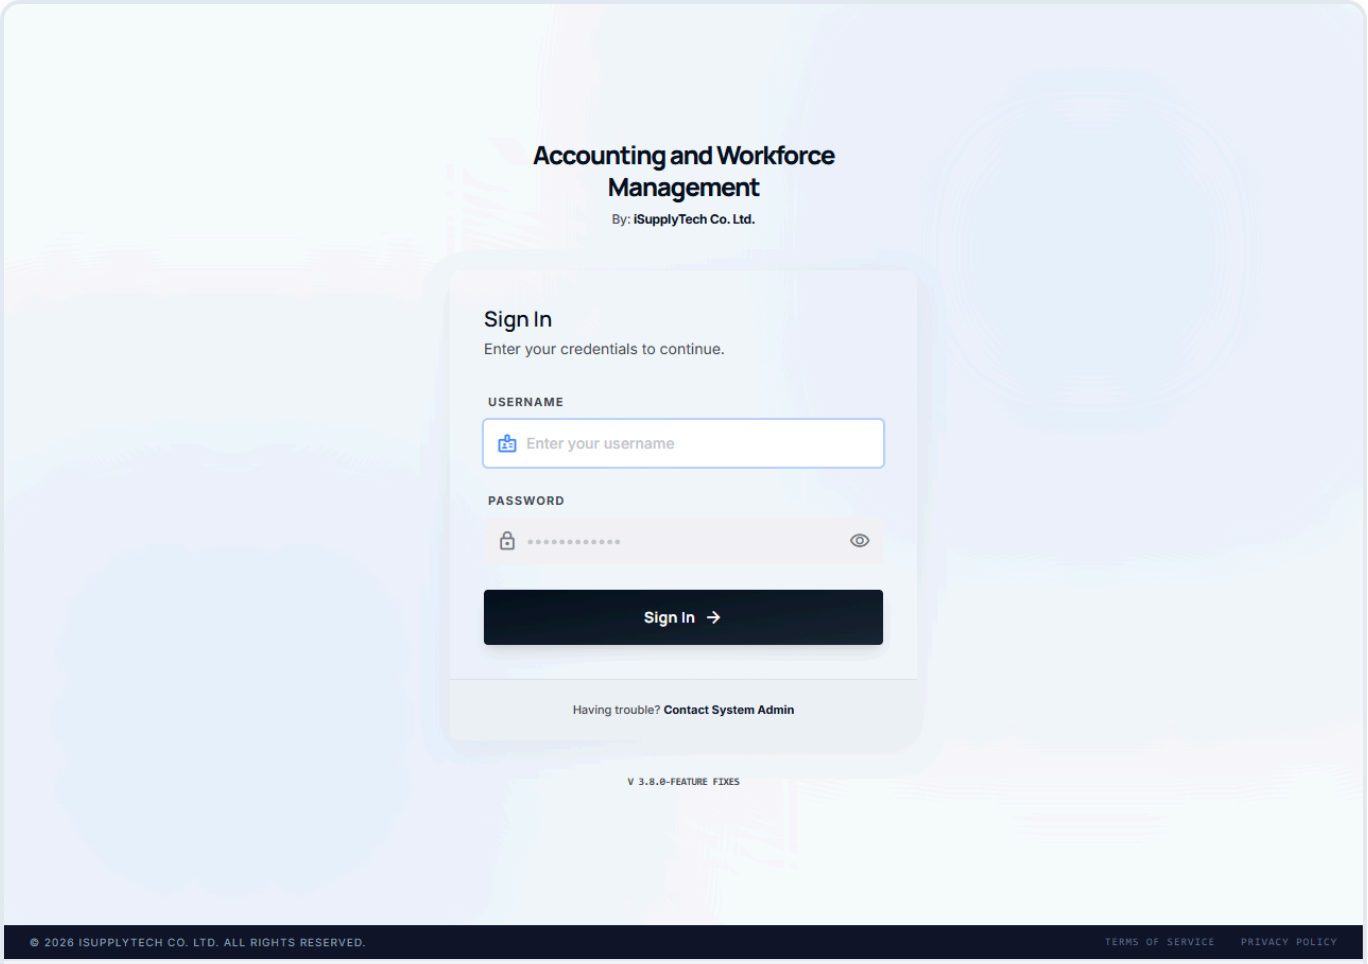
SCREENSHOT: FINANCIAL STATEMENTS MAIN MENU — SHOWS CURRENT PERIOD AND UNPOSTED COUNTS

3 Post all remaining transactions

Before closing the month, you must post ALL transactions. Navigate to:

Main tab → Processing → Post All Transactions

Click the **"POST TRANSACTIONS"** button. Wait for the confirmation. The unposted count must reach **zero (0)**.



SCREENSHOT: POST ALL TRANSACTIONS — CLICK THE BUTTON WHEN UNPOSTED COUNT IS GREATER THAN ZERO

4 Back up your database (recommended)

Go to: **File tab → Administration → Backup Database**

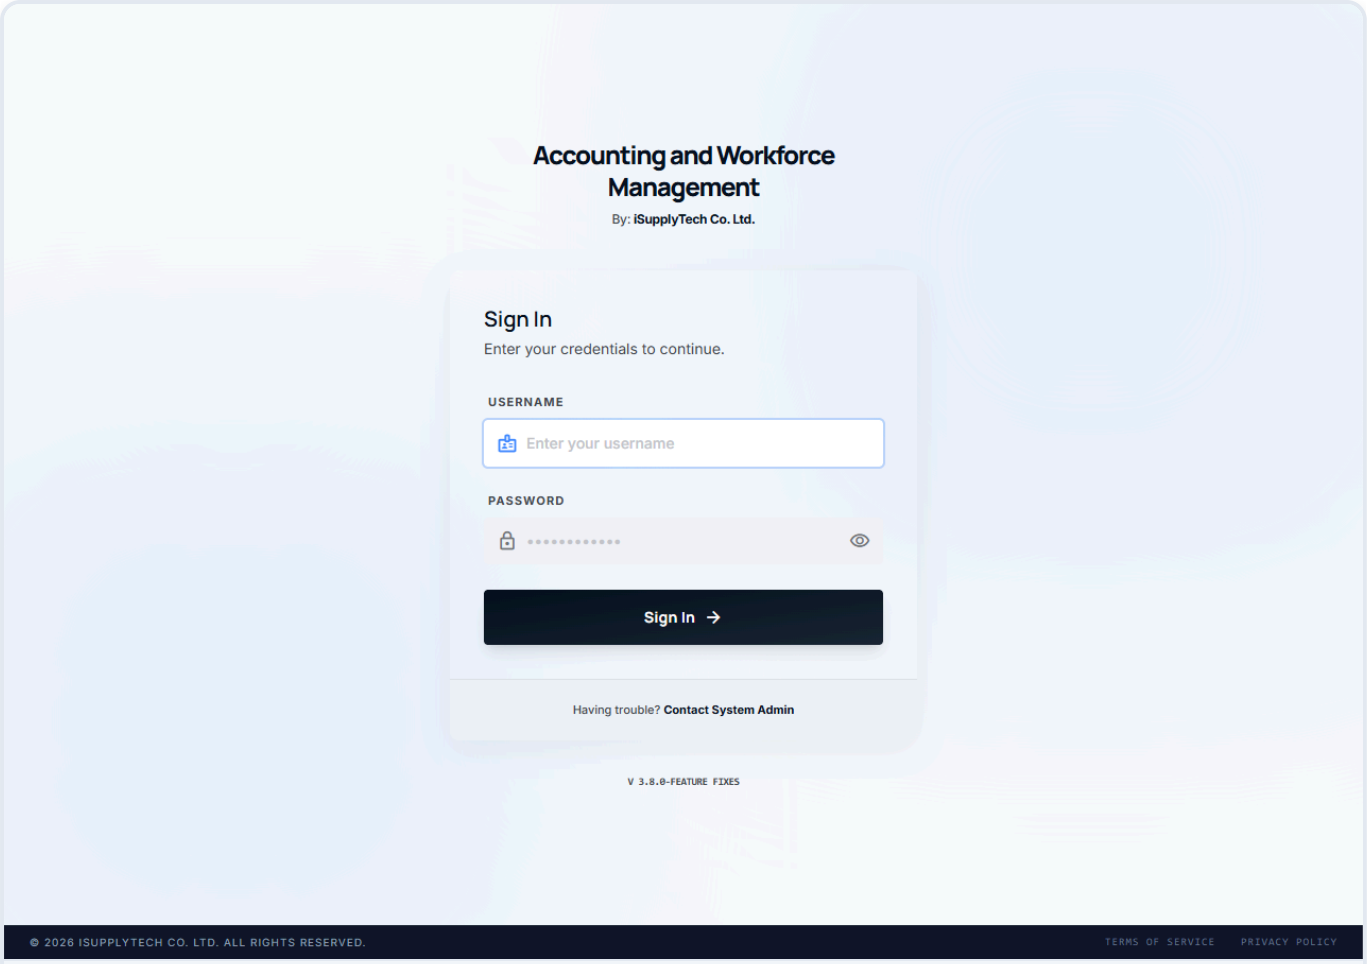
Click "Backup Database" and wait for the file to download. Keep this file safe.

5 Open Month-End Processing

Navigate to: **File tab → Administration → Month-End Processing**

You will see a panel showing:

- **Period to Close** — e.g., "March 2026"
- **Period Range** — the date range
- **Unposted Transactions** — must show `0` (green)



SCREENSHOT: MONTH-END PROCESSING PAGE — SHOWS CURRENT PERIOD INFO AND THE STEP WIZARD

6 Confirm the period

Type the period you want to close in the format `M/YYYY`.

Example: To close March 2026, type: `3/2026`

Then click **"Confirm"**.

7 Execute the Month-End Close

Click the red **"Close Period Now"** button. A final confirmation will appear listing what will happen:

- All account balances will be **rolled forward**
- Transaction tables will be **cleared** for the new month
- If December, income/expense accounts will be **reset to zero**

Click **"OK"** to proceed and wait for the processing to complete.

8 Done! You are now in the new month 🎉

You will see a green message: **"Period Closed Successfully"**. The system automatically advances to the next month. You can start entering transactions for the new period!

🚫 **WARNING: THIS CANNOT BE UNDONE!**

Once you close a month, you **cannot** go back. That is why Step 4 (Backup) is very important. If something goes wrong, contact your System Administrator to restore the backup.

Special Case: Year-End Close (December)

If the current month is **December**, the month-end close will also perform a **Year-End Reset**:

- All **income** and **expense** accounts will be reset to zero
- The system advances to **January** of the next year
- A yellow warning banner will appear to alert you

⚠️ **EXTRA CAUTION FOR DECEMBER**

Make sure all year-end adjustments are entered **before** closing December. Review your Income Statement and Balance Sheet reports.

Quick Reference: Navigation Map

ACTION	WHERE TO FIND IT
Enter Transactions	Main tab → Data Entry → choose type
Post Transactions	Main tab → Processing → Post All Transactions
Review Reports	Query/Report tab → Report Generation
Backup Database	File tab → Administration → Backup Database
Close the Month	File tab → Administration → Month-End Processing
Check Current Period	Main screen shows "Current Period: [Month Year]"

Troubleshooting

Q: "The system says I have unposted transactions."

Go to **Main tab** → **Processing** → **Post All Transactions** and click **"POST TRANSACTIONS"**. Wait for it to finish, then go back to Month-End Processing.

Q: "I accidentally closed the wrong month!"

Month-end close **cannot be reversed**. If you have a backup, contact your System Administrator to restore it.

Q: "The screen is stuck on 'Processing...'"

This can take up to 2 minutes. Please wait. If it takes longer, refresh the page and check if the period has advanced.

Q: "I see a yellow warning about Year-End."

This is normal for December. It means income and expense accounts will be reset. Make sure all year-end adjustments are complete before proceeding.
